Dear Dr. Malec,

It is with great pleasure that I write to inform you that the APPIC Board of Directors have approved your program's application submission for membership in the Association of Psychology Postdoctoral and Internship Centers. Your materials were reviewed by the Postdoctoral Membership and Review Committee and found to meet membership requirements.

The Board encourages you to consider going forward with accreditation through the APA Commission on Accreditation. If your program does not become accredited by the APA, it will be reviewed again in three years. Your program will be up for the Three Year Review in **2028**.

We appreciate your involvement with APPIC and compliance with the membership policies and procedures. The APPIC Board of Directors and APPIC Committees work hard to serve APPIC member programs, as well as students and graduate program Training Directors. APPIC encourages you participate in APPIC activities and contribute to APPIC projects and governance. Members attend biannual conferences, annual APPIC business meetings at APA, and APPIC CE offerings. In addition, we continue to provide information via the [APPIC email listservs](#), and your program is listed in the online Directory, which is used by applicants who are in search of a postdoctoral fellowship in psychology.

APPIC often requests volunteers to assist with APPIC projects and committees and hope you will seriously consider making this type of commitment and thereby contribute to APPIC and to the entire psychology training community. Please feel free to contact Central Office or any of the Board members with questions or suggestions at any time, and we look forward to collaboration with you and your training faculty.

With best wishes,

Amy Silberbogen, PhD, ABPP – Chair of APPIC Board
